

WELL is the leading global framework for scaling health across your organization.

30,000+ locations in 98 countries | 3B square feet in nearly 100 countries

96 of the Fortune 500

WELL drives value across every aspect of your business

WELL applies the science of how physical and social environments affect human health, well-being and performance.

Developed over 10 years and backed by the latest scientific research, WELL outlines key building-level and organizational strategies across 10 categories.

7,000+ peer-reviewed studies

500+ evidence-based strategies

30,000+ locations

WELL can improve human and social capital performance and enhance your organization's ESG strategy.

Leading brands leverage WELL in ESG reporting

WELL can help streamline ESG and sustainability reporting by aligning with leading ESG frameworks, green rating systems and the UN Sustainable Development Goals.

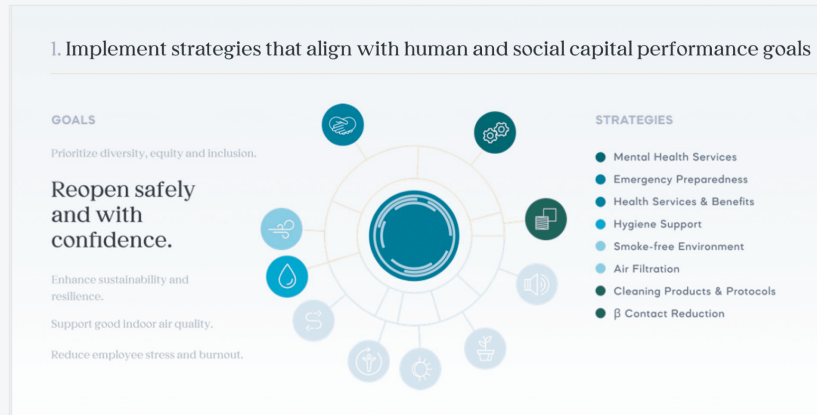

WELL is championed by a powerful network of 20,000+ industry leaders, researchers and practitioners.

Our global network of enterprise providers deliver a comprehensive suite of WELL solutions at scale to support the growing demand for organizational commitments to health.

WELL is flexible and customizable.

WELL meets the unique needs of organizations everywhere. Policy, operations and design interventions can be implemented at a single location or at the enterprise scale. Organizations can pursue evidence-based strategies in focus areas like diversity and inclusion, health and safety and more.

WELL is a standard you can trust.

Our global community of WELL Performance Testing Organizations validate achievements based on actual performance data, not just design intentions. WELL is shaped by a robust standard development process, including vetting of key milestones by our esteemed Governance Council.

ONSITE TESTING + DOCUMENTATION REVIEW = PERFORMANCE VERIFICATION

WELL's greatest asset is IWBI and its people.

Our team of in-house experts provide technical, marketing and PR support at each step of the WELL journey.

WELL anchors the movement to advance health and well-being in buildings, communities and organizations around the world.

From raising the bar for health leadership to driving change in the capital markets and on the Hill, our Investing for Health platform is helping define the social and human capital metrics that will transform the way the world values and prioritizes health.
